

Roy Sunley and Serap Enver will be offering healing at The London Spiritual Mission on our special Healing day on Saturday July 30th. Both Serap and Roy use various complimentary healing techniques to bring about profound healing and positive change to their patients for both physical and emotional issues, in warm and embracing styles.

Both Healers are Reiki Master Teachers using the world renowned and National Health approved original Usui Reiki Japanese version of Reiki Healing.

Serap and Roy are both also qualified Quantum Touch Practitioners and use light touch and breathing techniques to further enhance the healing that they offer to friends, family and patients, and on Saturday 30th July to you all.

Also as trained and qualified Mindfulness and Meditation Teachers they both use relaxation techniques and visualizations to enhance their healing and bring about a deeper sense of emotional well being and peace.

Roy and Serap also use their well established spiritual gifts to enhance the healing they offer with the amazing added advantage and power of Spiritual energies.
