During the workshop we will look closely at how to notice and work with the presence of the spirit world, the evidence they are bringing to prove their presence and reality and what it is they are trying to commune to the sitter.

These workshops are useful for those starting out and wanting to explore their psychic awareness.

We will look at various elements that make up your mediumistic awareness and how they can bring you to birthing your potential self, within both your personal, mediumistic, and spiritual self.

We will be doing this through, meditations, theory, practicums, discussion, and reflection.

Please bring your own packed lunch, writing material, colour pencils and pens.
