This workshop is designed to help the student explore and understand the levels of awareness available to them as they work with their mediumship. Daniel will encourage and coach students who have a willingness to use their mediumistic awareness through public forums or 1-1s.

Its also useful for those starting out and wanting to explore their psychic awareness.

We will look at various elements that make up your mediumistic awareness and how they can bring you to birthing your potential self, within both your personal, mediumistic, and spiritual self. We will explore how it helps or hinders the intention of the spirit world though their communication.

We will be doing this through, meditations, theory, practicums, discussion, and reflection.

**Please bring your own packed lunch, writing material, colour pencils and pens
