Conversations with Spirit

A day of exploration into the many ways the spirit world speak to us and relay information through mediumship

Mediumship is the language to speak with the spirit

Come and speak with those who dwell in the other world, receive help to be more mindful, more conscious of what the spirit world are trying to say about themselves and to you as a medium, allow your soul to converse with those in the spirit world, and allow that conversation to be expressed in your mediumship

An energetic day of work, practice, debate, reflection and freedom to allow spirit to use you and your uniqueness within your mediumship

Learn how to use your power to talk to those in the spirit world

The workshop will be tailored to the needs and level of expertise of those present.

£35.00 for the day

Please bring your own packed lunch
