The Power & Presence of the Spirit World

A new development course for 2019
led by Daniel Pitt and Doreen Quinnell

Start date Thursday 21st February 2019 7pm - 9pm

A course designed to facilitate students with a tool kit to have greater understanding of their own spiritual and mediumistic awareness.

Being a medium and psychic has to be more than just giving information, evidence and messages, it's about being aware how the power of their spirit and the spirit world can move them to provide an enriched experience of their life

A good worker of the soul also needs to understand and be present within their own soul, we need to bring back the greatness of the soul, step in to our power and celebrate the wonder of individuality. Not just in our mediumship and healing but as human beings in walking our earthly life.

over 10 weeks, you will have opportunities to explore the following:-

- Connecting and building power, looking how you use it in self within spiritual and mediumistic development.
- The Auric Friend and its use in mediumship.
- Types of evidence - how you can use information from the other world to prove that, love like life, does not die!
- Looking at you and what you offer the spirit world – the vessel of the medium
- Psychic Art and Colour in Mediumship.
- The Altered States of consciousness.
- Understanding the presence of the spirit world and what it is they are wanting to tell you and those you are sitting for.
- Inspiration and mediumship

The subject matters will be woven throughout the course and tailored to the needs and level of the students who attend the course.

Not a circle, not a workshop but so much more, a journey for you to be mindful of your own soul's mind and the Soul you are. By allowing the spirit world to navigate your development and to help you reach you potential.

Course fee £150 with payment in advance or by two installments to Doreen Quinnell (cards not accepted).
