

PATH OF TAO

Soul-Realisation through Movement

Energy - Flow Course

Since 1989

Teacher: Panda Chi

This two weekend course is dedicated to spiritual awakening. The work is suitable for all abilities and facilitated through Panda Chi's free state of 'being' and 'transmitted' through vibration; as it was by his realised teachers before him. This transmission is shared with students through **Satsang** (the inter-active sharing of deeper issues related to Truth) and a threefold physical practice; **Tai Chi**, **Chi Kung** and **Chakra Healing**, which purifies and harmonises the physical, mental and emotional bodies.

This is highly impactful work and due to the strength of the transmission, profound healing and transformation often occur. The course is therefore particularly beneficial to those wanting to:

- uncover and enhance their psychic and healing abilities
- raise their consciousness and understand themselves on a deeper level

- progress their healing journeys or explore their potential for transformation
- attain greater peace and contentment for themselves and their loved ones

Panda Chi:

With over 40 years practice in Eastern Therapeutic Therapies and Self-Realisation arts, Panda Chi has combined his personal awakenings and trainings to create a unique work that leads to transformation and Soul-Realisation. He has been teaching internationally for 28 years and is the author of two books '**Autobiography of a Tai Chi Yogi**' and '**Freedom is a Human 'Being'**', and an '**Self-Realisation through Movement**' instructional DVD. For more info on the course, student testimonials, the lineage, course photos and more, please visit: www.path-of-tao.net
